2. It is considered that effective direct liaison with ORR, OSI, and OSI, through normal administrative channels, should be adequate, without the necessity for establishing a formal intra-CIA committee for this purpose.

3. Enclosure (A) is accordingly returned herewith, with the alternate suggestion that AI/ORS initiate a memorandum addressed to all Assistant Directors and COMPS advising that [redacted] is representing CIA as an observer on the Department of Commerce's Inter-departmental Advisory Committee on Requirements pertaining to sensitive and other matters upon which the United States exercises export controls and to may desire the assistance of various offices within CIA in the fulfillment of his duties.
